www.seniornetworksolutions.com

Seniors Network Solutions started as a discount supplier of name-brand incontinence products to the public, long term care, retirement and group homes. We have expanded our product range by adding over 2000 home healthcare, mobility products and services together with key partners in Canada and the US.

This product guide is a sample of the equipment, supplies and services we currently offer. Our website shows our complete range of products and is updated periodically with new and exciting innovations. Please, don't hesitate to contact us for any additional product or service inquiries: as our name already indicates, with the use of our network of international healthcare suppliers/manufacturers we will find the solution for your needs.

Our business philosophy is to offer standard products through our cost-efficient online portal to end-users, health professionals and institutions, while custom products and solutions are offered through our local partners. Our clients have the advantage to use our price-attractive online store, while still having the access to a showroom located in Richmond Hill, Ontario. The size of the warehouse guarantees that almost all products shown online are in-stock items and therefore allows for a quick Canada-wide delivery to the client.

To view our current product assortment please visit our website www.seniorsnetworksolutions.com.

We would like to thank our current client base and business partners who helped in the success of Seniors Network Solutions. We are looking forward to continue adding new products and services to our portfolio to serve you even better.
